Delivering Experiences

Key Features of Webcrate

Easy-to-Use Admin Panel

- Non-technical users can manage pages, text, banners, images, menus, and announcements.
- Dynamic sections like About Us, Departments, Committees, Infrastructure, and more can be added with personal touches.

E-Commerce Modules

- Integrated e-commerce module enables businesses to manage products, categories, orders, and payments seamlessly within their dynamic website.
- Supports secure checkout, inventory tracking, and customizable storefronts to suit a wide range of business needs.

SEO & Social Media Integration

- Built-in tools to enhance visibility on Google.
- Easily link to social media platforms.

News Ticker and Pop-Up Alerts

- Highlight urgent updates or important information with pop-ups or scrolling news.

Analytics Integration

- Know your audience using Google Analytics or custom visitor trackers.

Fully Responsive & Mobile-Friendly Design

- Looks great on desktops, tablets, and smartphones.
- Optimized for performance and fast loading speed.
- Accessibility features are made available.

Dynamic Media Management

- Upload and manage image galleries, video sections, PDF files, and downloadable documents.
- Add your logo, banners and carousels.

Chatbot

- Chatbot feature for instant customer interaction, supporting automated responses, lead capture, and FAQs handling.
- Easily customizable to reflect business tone and integrated with the website for 24/7 support and engagement.

Feedback, Enquiry & Contact Forms

- Users can send messages or feedback directly from the site.
- Dynamic forms and workflows can also be generated with our Workosphere software.

Accessibility

- Designed to be inclusive, allowing access for differently-abled users.

Why Choose Webcrate?

- ✓ Ready-to-go platform – Quick deployment
- ✓ No coding required – designed for ease of use
- ✓ Fully supported and maintained by Technowin
- ✓ Ideal for schools, colleges, NGOs, private firms, and government portals
